Profile

Project manager with a proven track record of successful campaigns under tight deadlines and budgets. Adapts quickly to new situations and has got a strong can-do mindset.

Ready for the next challenge.

"Even if you are on the right track, you will get run over if you just sit there"

- Will Rogers

Experience

Project Manager @Texo Design
<http://texodesign.com.au>

Apr 2015 - ongoing (2 years 2 months)
Ho Chi Minh City, Vietnam

I manage Texo Design's Front-end team and Design team (6 people) which is directly responsible for every frontend and design work of the company. I work on big corporate websites and mobile apps across Australian brands.

My time is divided between meeting with clients, tracking campaign performance, while also providing valuable and insightful knowledge and technical support to each individual members of these 2 teams

Agency I worked with: Mccann, Digital Dialogue, One Partners

Brands I worked on: Tiger Air Australia, Jeep Australia, Bic, Maurice Blackburn, Lesmills on Demand, Dumb ways to die, Clarence, Lung Learning, Retreat Booker

Achievements

- Successfully managed requirements and delivered the new Tiger Air website interface for Australian market.
- Delivered and managed the whole production cycle of bicdesignonfire.com.au
- Working with Mccann Account Manager to prepare scope of work and successfully delivered the overhaul interface redesign of Maurice Blackburn (including front-end development and CMS integration)
- Successfully delivered Lesmills on Demand shop which is based on shopify platform
- Led the frontend team to work on the implementation of Clarence website. This website includes an archive of over 60 Australian lawyers

Lead UX/UI Designer @Texo Design
<http://texodesign.com.au>

Sep 2013 - Apr 2015 (1 years 8 months)
Ho Chi Minh City, Vietnam

During 2013 - 2015 period, Texo Design focused on creating a mobile app for managing electricity usage. I led the design team (3 people) to create the interface for this app across various platforms namely iPhone, Android and Web.

Achievements

- Successfully launched the app within 6 months by applying the scrum methodology
- Successfully designed the User Interface and User Experience for the app and keep improving it over time also by applying scrum methodology
- Providing valuable and insightful knowledge to other designer team members about usability and user research process
